PASSAGE OF TARIFF BILL OCCASION OF REJOICING.

TO CONSIDER CURRENCY

House Leaders Want More Time—Taft's Blanket Has Been Badly Torn by New Rules.

By W. C. Van Cleve.

Washington, D. C., May 14.—When the Underwood tariff bill passed the house a few days ago Champ Clark reverted to sacred song and declared "this is the day we long have sought," true to the feelings of Democrats generally. It has been many years since the house passed the last general tariff revision bill, the Wilson bill, during the Cleveland administration. Twenty years of evangelistic work among the people, aided by the growing greed of the favored beneficiaries of the protective system, have changed the complexion of the house to one almost wholly Democratic and the fireworks and tensity of feeling attending the passage of the Wilson bill were not in evidence in the consideration of the present bill. The Republicans of both brands are arming for a vigorous attack in the senate.

* * *

Neither the Republicans nor the so-called Progressive brothers seem to have gained any comfort for their respective parties by their attitude toward the Underwood bill. Notwithstanding the fact that the Payne tariff law has been twice repudiated at the polls, condemned by the Republican leaders and disowned in two campaigns, practically every amendment offered by the Republicans in the house to the Underwood bill was to restore rates in the Payne law. Although proclaiming their desire for revision downward to the last, Mr. Murdock and his little flock of progressives, lined up at the last and voted against the bill.

* * *

The seat of activities has now been transferred for a few weeks to the senate. The president insists that currency legislation shall be taken up at this session and the greater part of the coming three weeks will be consumed by the house in the arrangement of the membership of the various committees and the preparation of a currency bill. Only a few of the fifty-six committees of the house have yet been appointed. Two new ones are to be created, a committee on roads, of which Representative Shackleford of Missouri is likely to be made chairman, and a committe on the public health. The house leaders have not favored the passage of currency legislation at this extra session, preferring to pass the tariff bill and let the country become accustomed to it before taking up the broad subject of currency. They also preferred more time in which to study the question and work out a satisfactory reform, but, in deference to the wishes of the president, Mr. Underwood has consented to go ahead with the consideration of such a measure. It is not likely that there wil be any more important legislation at this session and, in fact, the currency bill may only be brought before the congress and carried over until the next session. Mr. Wilson, however, is understood to be especially anxious that the matter be carried to a finish.

* * *

Mr. Taft's blanket, thrown around his fourth class postmasters at the close of his administration, has had a few rents torn in it. Examinations are to be held and new appointments made. Among the rules laid down for these examinations is one that the applicant shall not be more than sixty years of age and it is said that the age limit may be reduced still further. The battle scarred veterans of many political battles must retire and give the young men the right of way. This is no more than common sense if everything is to go under the civil service. If a man is to go in with a life tenure, he should have a good deal of active life before him. I have never yet heard a convincing reason for placing all government positions under the protection of the civil service, but the last Democratic platform declared for a scrupulous observance of the civil service laws "to the end that merit and ability shall be the standard of appointment and promotion, rather than service rendered to a political party," and it is believed that the administration means to enforce the civil service and perhaps extend it.

A distinguished party including Uncle Andy Carnegie and members of the British and Canadian parliaments were here this week with a view to arranging for a convention of all English speaking nations to celebrate the anniversary of the signing of the treaty of Ghent. The motive is to promote world wide peace by peaceful means rather than by big navies and a multiplicity of brass buttons.

71 CASES FILED

VERY LIGHT DOCKET FOR JUNE TERM OF COURT.

SIXTEEN ASK DIVORCE

Borchers Cases Are Only Sensational Suits—Important Case is Moore Suit to Set Aside Deeds.

The June term of circuit court, which will commence on Monday, June 16, promises to be one of the lightest terms of circuit court held for some time. Saturday was the last day of service on all suits except notes and accounts. At this term, as is usually the case, there will be no jury trials, owing to the busy season of the farmers.

There is only one sensational suit for the June term and that is the $20,050 damage suit of the Borchers against John Hoshor. The chances are that the case will not be tried at this term. Another important suit that is set for the June docket is the suit of set aside deeds filed by Charles C. Moore and Belle Russell against John S. Moore.

For the June term, there are sixteen divorce suits to come up. This is a large number for this term of court Many of the other cases filed are partition and perfect title suits. There were only 71 cases filed up to Saturday noon for the June term.

There were only three suits filed against the railroads for the coming term of court, one being against the Wabash and two against the Chicago Great Western.

HIGH SCHOOL NOTES.

Rev. Grundy Fisher, who now has a charge in Minneapolis, and who is a graduate of the Maryville high school, gave a short talk to the students Tuesday morning at assembly. The purpose of his talk was to impress upon the minds of the pupils to not only strive to keep on a level with their studies, but at the same time they should develop reserve force so that when they are compelled to extend themselves, they will be equal to and surpass the occasion.

The first of the three games of baseball that are to be played between the two teams at the high school was played last Thursday afternoon on the Normal grounds. Even though it was a very one-sided affair, the score being 19 to 4 in favor of Davids' team, it was not without features. Ed Gorman made a grandstand catch out in deep center that seemed almost impossible to get, and mention must be made of the batting of Homer Scott, who got five safe blows out of that many trips to the plate. The batteries were: Davids' team, David and Miller; Wilson's team, Condon and Wiles. Mr. Westbrook umpired.

The Intermediate Endeavor will meet Sunday evening at 6:45 o'clock at the home of Mr. and Mrs. J. D. Frank, when a musical program will be the principal feature. Donald Hagins will be the leader. A quartet composed of Claude Glass, Curtis Benight, Mary Margaret Richey and Virginia Lawson will sing with Mary Woolridge as pianist. There will be several others on the program.

Elected New Officers.

The music department of the Twentieth Century club met with Mrs. Ferdinand Townsend Friday afternoon and selected its officers for the coming year. Mrs. Oliver K. Bovard was made chairman; Miss Brownie Toel, vice-chairman, and Mrs. Leslie Dean, secretary-treasurer. On account of postponement in meetings of other departments of the club, the April meeting of the music department was not held, consequently a double program was given Friday, the election of officers taking place during the recess between the programs. Church music was the first topic considered. Mrs. Will Wallis, Jr., read a paper on "The Evolution of the Church." She was followed by a quartet composed of Mrs. George Richard Eaton, Mrs. D. J. Thomas, Mrs. J. E. Bailey and Mrs. Ferdinand Townsend, who sang the hymns "Holy, Holy, Holy" and "O, Perfect Love." Mrs. Eaton then gave sketches of "Nearer My God to Thee" and "One Sweetly Solemn Thought," the last hymn being sung by Mrs. H. L. Raines. The solo, "Fear Ye Not, O Israel," by Dudley Buck, was sung by Mrs. Thomas. The subject for the May program was "Victrola Day." Miss Clara Sturm opened the porgram with a paper on "Women in Music." Selections by Geraldine Farrar, Emma Eames, Ellen Beech Yaw and Maude Powell were given on the victrola. Mrs. Leslie Dean then spoke of "The Sphere of the Victrola in the World of Music." The program closed with other selections upon the victrola by Louise Homer, Emma Juch, Lillian Nordica and John Philip Sousa. Upon invitation of the hostess the guests remained for refreshments.

Mrs. Townsend presided at the victrola during that part of the program and before the execution of each number, gave a description of the song and something of interest in regard to the singer, which was instructive to everyone. Mrs. Townsend is the retiring chairman of the music department and in recognition of her services, the members presented her with a bouquet of sweet peas in lavender and white, the club colors.

CARLSBAD,
New Mexico

We have 12,000 acres of land covered with beautiful alfalfa, cutting from 5 to 7 crops, and making from one and one-half to two tons per acre.

This is a new proposition, the water being controlled and operated exclusively by the United States government.

The following actual results taken from an affidavit given by I. S. Osborne, of Carlsbad says: "On my farm near Carlsbad I have 65 acres in alfalfa that has averaged two tons each cutting four times this year. The hay has been sold loose at from $10 to $12 per ton, I also cut seed from 23 acres of this land which yielded 625 pounds to the acre, selling at 14 cents per pound, an average of $88 per acre for 42 acres and $126.04 for 23 acres.

Large crops are not the only benefit to be secured by living at Carlsbad, New Mexico. More important even than money is health. The pure waters with their health giving medical properties from the famous Carlsbad and Malaga Springs, together with the pure, invigorating air and the beautiful sunshine, make it an ideal health resort.

We will sell this land on reasonable terms, deferred payments drawing 6 per cent and title guaranteed by government.

The first excursion will leave Kansas City, Mo., Wednesday, May 21. Round trip $45 including berths and dining room service. For information call on

FELT BAD ALL THE TIME

Shellhorn Lady Suffered a Great Deal, But Is All Right Now.

Shellhorn, Ala.—In a letter from this place, Mrs. Carrie May says: "A short time ago, I commenced to have weak spells and headaches. I felt bad all the time, and soon grew so bad I couldn't stay up. I thought I would die.

At last my husband got me a bottle of Cardui, and it helped me; so he got some more. After I had taken the second bottle, I was entirely well.

I wish every lady, suffering from womanly trouble, would try Cardui. It is the best medicine I know of. It did me more good than anything I ever used."

Cardui is a woman's tonic—a strengthening medicine for women, made from ingredients that act specifically on the womanly organs, and thus help to build up the womanly constitution to glowing good health.

As a remedy for woman's ills, it has a successful record of over 50 years.

Your druggist sells it. Please try it.

TRADE REVIEW FOR THE WEEK

Volume of Transactions in All Leading Branches Very Large.

ACTIVITY IS TRIFLE ABATED.

Though Bank Clearings for Week Fall Off, Railroad Gross Earnings Continue to Expand—Export Trade Is Enormous.

New York, May 17.—Dun's Review says: There is still some abatement of activity, due chiefly to anticipated tariff changes, but the volume of transactions in all the leading branches of trade and industry is very large. Conservatism is naturally more pronounced in the industrial and financial east, while in the agricultural west and south there is a marked feeling of confidence, based on the splendid crop conditions and the enormous export trade, much of which means large returns to producers of those sections.

The decrease in bank exchanges this week of 13 per cent as compared with the corresponding week a year ago was chiefly due to renewed speculative transactions at New York. It is noticeable that in contrast to the falling off in bank clearings, railroad gross earnings continue to expand, the gain in the first week of May being 7.2 per cent. The opening of lake navigation is helpful to business in the northwest. In most sections active building operations are reported, although in some places these are checked by labor troubles.

The iron and steel mills are busily engaged on selling orders, but there has been a net decline in business. The recession in iron and steel, as well as in the textile trades, is remarkably small in view of the conservatism inspired by the pending tariff changes.

The recent fall of rain has improved the already bright crop prospects. Agricultural exports in April broke all previous records for the month and during the latest week the total exports from the port of New York were $18,566,623, nearly equalling the imports and $1,004,202 greater than last year. Failures for the week are 290.

MILITANTS TO WRECK TRAIN

Men With Crowbars Discovered on Viaduct Following Threat.

London, May 17.—Following the receipt by officials of the Midland railway a few days ago of an anonymous letter giving warning that a suffragette attempt would be made to wreck a main line express, two men, with wrecking tools, were arrested on a high viaduct near Whalley, in Lancashire, which carries the Midland tracks connecting Liverpool with Scotland.

They carried crowbars, sledge hammers and other tools. The prisoners were remanded for a week.

A workman-like cannister of explosives, with a clockwwork attachment, was found in the Rotherhithe public library in East London. It was labeled "Votes for women." According to belief in some quarters, it was placed there by a man. Indeed, the police suspect many men have been engaged by the militants for this work.

Another machine was found in the letter box of the Wandsworth district postoffice in Southwest London. It consisted of a glass tube containing fluid. A partly burned fuse was attached to one end.

Still another cannister of explosives, with a partially burned fuse, was found in Holy Trinity church at Hastings, a popular watering place on the south coast, where the militants have been most active during the week.

ARMY COMMISSARY HAS NEW BREAD RECIPE.

Washington, May 17.—Sour bread, baked after the French army fashion, finally has been given up by the United States military establishment. After numerous experiments, Commissary General Sharpe has developed a new bread that is impervious to the weather, sweater than the old loaves and easier to transport. Following is the recipe:

To 100 pounds of sifted flour add fifty-two pounds of water, one and a half pounds of dried yeast, three pounds of sugar and one and a quarter pounds of salt.

The mixture is cooked in a slow oven and the loaves baked flat.

Moonshiners Flee Before Posse.

Springfield, Mo., May 17.—A band of armed moonshiners, owners of a "wandering" illicit still in the Ozark mountains of Ripley county, Missouri, are in flight before a posse of federal officers, who left Springfield to raid the still, according to word received here. The moonshiners are reported to have crossed into Oregon county, hotly pursued by the posse.

Girl Does Not Recall Shooting.

Muncie, Ind., May 17.—Miss Doris Underwood, the young Hartford City school teacher on trial here charged with shooting with intent to kill Otis Fisher, a drug clerk, who, she alleged, had wronged her sister, Ada, declared at her trial that she remembers nothing of the shooting.

ANNOUNCEMENT EXTRAORDINARY

Abraham Lincoln Hotel in New York Exclusively for Men.

From Life by our Homer Croy.

We are at last able to fill a long felt want. The Martha Washington hotel, exclusively for ladies, now has its counterpart. Located in the heart of the metropolis, the Abraham Lincoln hotel offers a safe harbor for all men visiting the city who desire that privacy and security so necessary to any self-respecting gentleman in these days.

The Abraham Lincoln hotel has been built for the exclusive use of men, and it is run and managed throughout by men, no woman being permitted within two hundred feet, so that all gentlemen visiting our city and who, under the usual circumstances are constantly maddened by the sight of women wearing expensive clothes, etc., may now enjoy their sacred rights and privileges without fear.

Up to the present time there has been no place in the entire metropolis where a man might retire in safety under adequate protection. In the Abraham Lincoln hotel every detail of construction and management has been arranged in order that all guests may enjoy that peculiar freedom which is now so rare.

Husbands who enter the city from all parts of the country should go at once to the Abraham Lincoln hotel, where they will receive every attention at prices within the reach of all. Located in a quiet street, under police protection, every husband will enjoy that rest and freedom from care which he can obtain nowhere else.

The appointments of the hotel have all been made with special reference to the needs of our patrons. There are no cosy corners, tidies on the backs of chairs, fusy curtains or silk and lace bed spreads in which, if you are restless, you are liable to get your feet entangled at one or two in the morning.

Our pajama poker room is one of the features of the place; in fact, guests may wear pajamas at any hour of the day and night.

The success of the hotel is its own best advertisement. Not only is it crowded day and night by guests from all parts of the country, but local husbands who wish to get away from their wives for a few days' much needed rest are flocking here in hundreds. The following letter is only a sample of many constantly received since the hotel was opened:

Dear Sirs: I wonder if you fully realize what you are doing for us men. This is the first time in my life that I have been able to get entirely away from women. The rest to the eye alone is enormous. Everywhere I go I see nothing but women. No one can appreciate what it means not to have to look at them until he has tried it. I registered at your hotel last week and have been steadily gaining in health and strength ever since. I haven't had to listen to a woman now for over a week, and the simple fact that my wife cannot get at me is worth double what you charge.

Yours gratefully, Simeon Spader.

Dear Sirs: Although I am a bachelor, I want to thank you for the grand idea you have given to the world, embodied in your unique hotel. The other day I had just returned from a week-end party, where I had been playing bridge with a variegated assortment of women, and I was encrusted with a feminine atmosphere so deep that I couldn't see straight. Now I am a new man. For the first time in years I am able to reason correctly. Not to see a velvet slipper or a willow plume for twenty-four hours is worth everything to a city man.

Yours for freedom,
Billington Calloway.

We have a special corps of trained men chaperons, who will escort our guests at any time to any part of the city by application at the office. We have also, connected with the hotel, a bureau of advice for the use of our patrons who come to the city and who are obliged to transact business with women. We protect you in every way possible.

In case our guests wish to do shopping, the services of one of our chaperons will be found indispensible. The chaperons are specially trained for the service, and will protect you alike from the haughty superciliousness of the saleslady in the department store and the boisterous disregard of the female traveler in the subway.

In case you desire to go to the theater a chaperon is abosolutely necessary.

For the services of a chaperon, our rates vary according to the nature of the protection, but are principally as follows:

Ordinary rates, which includes protection about town, one dollar an hour.

On Fifth avenue, fifty cents an hour extra.

Shopping above Twenty-third street, two dollars an hour.

Below Twenty-third street four dollars an hour.

Services of specially skilled chaperon to acompany and protect you if you desire to interview your wife, one dollar a minute while interview lasts.

The whole atmosphere of the Abraham Lincoln is intensely cheerful, quiet and exceedingly restful. After a lifetime spent in listening to women, looking at their clothes, trying perhaps vainly to get a word in edgwise, and hoping in vain to come to some definite conclusion with and about them, every sincere earnest man looking for a real change should register at the Abraham Lincoln. Floor plans on application, also rates.

Government Homesteads.

The United States reclamation service announces the availability for homestead entry some excellent irrigated farms in the well-known Shoshone irrigation project near the Yellowstone Park in Wyoming and in the Huntley and Belle Fourche projects in Montana and South Dakota. Water is now ready for delivery to these farms, and under the new three-year homestead law a liberal inducement is accorded settlers in that they are permitted five months' leave of absence in each year. The cost of the water right is repayable in ten annual installments without interest.

In all of the foregoing districts there are already splendid transportation facilities good roads, schools, stores, churches of practically all denominations and rural free delivery. For those with sufficient means to commence farming operations this offers an excellent opportunity to work out one's independence and to develop a paying farm. Mr. Albert V. Leonard, settlement agent of the reclamation service, Federal Bldg. Chicago, has available for distribution several descriptive pamphlets concerning these projects and will be glad to furnish them upon request.

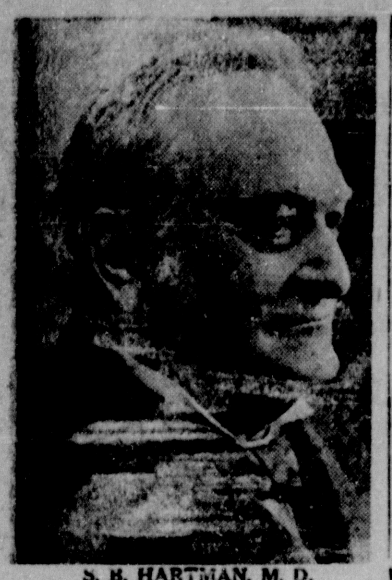
Religion and Medicine



S. B. HARTMAN, M. D.

Is there any intimate relation between religion and medicine?

Yes, there is. The old-time healer was also the priest. Theology and medicine have not maintained a separate existence very long. They used to be one. Yes, there is an intimate relation between religion and medicine.

It is well known of a person who eats with unthankfulness and ill-natured spirit, that his food will not have the same effect as if he were in a kindly mood. The same is true of medicine. If a person swallows a medicine with suspicion, has no faith in its action, is more or less afraid of the one who gives him the medicine, it cannot do him as much good as if he had unwavering faith in it.

The mind has a wonderful influence over the body. Those who believe that a loving Father controls the destiny of mankind are a great deal better prepared to meet the vicissitudes of life and to overcome disease than the one who has no such faith. A truly religious man makes a better patient than an irreligious man.

In using the word religion I am not referring to any particular kind of religion. The Jew and the gentile, the Catholic and the Protestant, each have a religion in which they believe. They also agree in the essentials.

A religious man may believe that it is necessary for him to use every means in his power to get well. He may believe that it is perfectly proper for him to employ doctors and take medicines. But he also believes that when he has done the best he can there is a higher power that has charge of his affairs, that absolute justice will be done him, that no evil thing can befall a good man. He goes forward with confidence, sick or well, rich or poor, and gets a great deal more comfort out of life than the man who has no religion.

I have found myself saying many times to people who have a chronic ailment, "You need religion as well as medicine. You need faith in an overruling providence that guides everything to wise ends; that the affliction of disease teaches a lesson that every one should strive to learn."

This does not mean that sick people are to sit down and trust that an overruling providence will do everything. Nothing of the sort. He is to use remedies guided by his best judgment, but in the use of them he can believe that all things are well and that in the end all things will come out right. Any medicine has a better chance to cure a man who holds such a faith.

Some men are so faithless and unbelieving, so restless and desperate, their minds so unsettled, that even the best of medicine has little chance to do them any good. Therefore I say that religion is often quite as necessary as medicine, that the want of religion frequently defeats the action of the best medicine.

Many a chronic invalid has searched in vain for a physical remedy simply because he has lost his grip on vital religion, the religion that not only provides salvation in the world to come, but soundness of body and mind in the world that is.

Yes, there is a most intimate relation between medicine and religion. Other things being equal, the irreligious man stands a poor chance of getting well when he is sick, while the religious man frequently gets well in the most astonishing way after the doctors have all given him up to die. With a firm faith in a rational religion and an obedient use of the right remedy a great many hopeless invalids could be restored to perfect health.

Well, you have made it clear as to what you mean by religion. But what is the remedy you would recommend?

Of course I would recommend different remedies for different conditions. But the particular remedy that I am interested in at this time, the remedy that meets more chronic ailments than any other remedy I know of, is Peruna. Peruna is a remedy for that multitudinous group of ailments that are dependent upon catarrhal derangements.

I am furnishing a book on catarrhal diseases which I send to any person free. In this book I explain quite fully the uses of Peruna. Those who do not care to wait to send for the booklet at this time will find information and instruction as to the general uses of Peruna explained within the wrapper of each bottle. PERUNA IS FOR SALE AT ALL DRUG STORES.

SPECIAL NOTICE—Many persons are making inquiries for the old-time Peruna. To such would say, this formula is now put out under the name of KA-TAR-NO, manufactured by KA-TAR-NO Company, Columbus, Ohio. Write them and they will be pleased to send you a free booklet.

SENATE AGAINST TARIFF HEARINGS

Penrose-La Follette Amendment Defeated, 41 to 36.

LOUISIANA MEN IN NEGATIVE.

Senators Ransdell and Thornton Vote With Republicans—Poindexter Is Only Progressive Voting With the Majority—Smoot Makes Prediction.

Washington, May 17.—Democratic leaders in the senate were indorsed in their determination to refer the Underwood tariff bill to the finance committee for consideration without public hearings. The Penrose-La Follette amendment, directing that public hearings be held, was defeated by a vote of 41 to 36 and the motion of Senator Simmons to refer the bill then was passed without a roll call.

Two Democrats, Senators Ransdell and Thornton (La.), voted for the Republican amendment. Senator Poindexter (Prog., Wash.) voted with the majority. Senator Jones (Rep., Wash.), who previously had determined to vote against public hearings, announced just before the roll call that he had changed his mind because the finance subcommittees were giving private hearings to some interests which he thought should be public.

The closing day of debate on the hearings was enlivened with a discussion of the Democratic platform and its bearing on free sugar by Senator James (Ky.), who vigorously defended the stand taken by President Wilson for free sugar, declared that the party had stood for free sugar and campaigned on it and defied the Louisiana senator to find a man President Wilson had ever told he was opposed to free sugar.

Senators Smoot, La Follette and Clark wound up the debate on behalf of the public hearings amendment, Senator Smoot predicting that the Democratic party would be put out of power for another quarter of a century as a result of its tariff bill.

BISHOP DOANE IS DEAD

Head of Albany Diocese of Protestant Episcopal Church Expires.

New York, May 17.—Bishop Crosswell Doane, bishop of the Albany diocese of the Protestant Episcopal church, died at the Hotel Manhattan in this city this morning. He was eighty-one years old.

Bishop Doane came here from Albany on Tuesday, accompanied by several of his nearest relatives.

He was apparently in his usual health as he entered the hotel, but showed the effect of his age. He became ill Wednesday and Dr. E. S. Hard, his family physician, was called and remained in attendanace.

The family gave out no information this morning regarding the bishop's death, but it was said at his hotel to be due to old age. The family plans to leave today for Albany, taking the body with them.

ARIZONA BARS ALL ALIENS

New Land Ownership Bill Is Signed by Governor Hunt.

Phoenix, Ariz., May 17.—Governor Hunt signed Arizona's new alien land bill. It prohibits any alien, whether of Caucasian or Mongolian descent, from owning land in Arizona if he has not declared his intention of becoming a citizen.

Representative Japanese conferred with the governor in an effort to induce him to veto the bill, but he declined on the ground such a law was necessary in interest of the white race.

The governor added that the law was made to apply to all aliens in compliance with the wishes of the national administration, as expressed during the session of California's legislature.

DRAFT REPLY TO JAPS

President Wilson and Cabinet Consider Answer to Protest.

Washington, May 17.—A tentative draft of the reply of the United States government to the Japanese protest against California land legislation, prepared by John Bassett Moore, counsellor of the state department, was considered for two hours by President Wilson and the cabinet. No intimation of its nature was made public, Secretary Bryan positively refusing to discuss either the proposed reply or Japan's protest.

Indicts Four Roads for Rebating.

East St. Louis, Ill., May 17.—Five indictments, charging rebating on sixty-three counts, were returned against four railroads and a coal company by a federal grand jury. The indictments set forth the instances wherein the laws were violated by the Vandalia, Big Four, Chicago, Indiana and Southern, the Grand Trunk railroad and the O'Gara Coal company.

Democrats Prepare for Future Fights.

Washington, May 17.—The campaign for Democratic supremacy at the polls in 1914 and 1916 was opened here when the executive campaign committee of the Democratic national committee organized and discussed preliminary plans. Representative A. Mitchell Palmer of Pennsylvania was made chairman and Rolla Wells of St. Louis, treasurer.

PASSAGE OF TARIFF BILL OCCASION OF REJOICING.

TO CONSIDER CURRENCY

House Leaders Want More Time—Taft's Blanket Has Been Badly Torn by New Rules.

By W. C. Van Cleve.

Washington, D. C., May 14.—When the Underwood tariff bill passed the house a few days ago Champ Clark reverted to sacred song and declared "this is the day we long have sought," true to the feelings of Democrats generally. It has been many years since the house passed the last general tariff revision bill, the Wilson bill, during the Cleveland administration. Twenty years of evangelistic work among the people, aided by the growing greed of the favored beneficiaries of the protective system, have changed the complexion of the house to one almost wholly Democratic and the fireworks and tensity of feeling attending the passage of the Wilson bill were not in evidence in the consideration of the present bill. The Republicans of both brands are arming for a vigorous attack in the senate.

* * *

Neither the Republicans nor the so-called Progressive brothers seem to have gained any comfort for their respective parties by their attitude toward the Underwood bill. Notwithstanding the fact that the Payne tariff law has been twice repudiated at the polls, condemned by the Republican leaders and disowned in two campaigns, practically every amendment offered by the Republicans in the house to the Underwood bill was to restore rates in the Payne law. Although proclaiming their desire for revision downward to the last, Mr. Murdock and his little flock of progressives, lined up at the last and voted against the bill.

* * *

The seat of activities has now been transferred for a few weeks to the senate. The president insists that currency legislation shall be taken up at this session and the greater part of the coming three weeks will be consumed by the house in the arrangement of the membership of the various committees and the preparation of a currency bill. Only a few of the fifty-six committees of the house have yet been appointed. Two new ones are to be created, a committee on roads, of which Representative Shackleford of Missouri is likely to be made chairman, and a committe on the public health. The house leaders have not favored the passage of currency legislation at this extra session, preferring to pass the tariff bill and let the country become accustomed to it before taking up the broad subject of currency. They also preferred more time in which to study the question and work out a satisfactory reform, but, in deference to the wishes of the president, Mr. Underwood has consented to go ahead with the consideration of such a measure. It is not likely that there wil be any more important legislation at this session and, in fact, the currency bill may only be brought before the congress and carried over until the next session. Mr. Wilson, however, is understood to be especially anxious that the matter be carried to a finish.

* * *

Mr. Taft's blanket, thrown around his fourth class postmasters at the close of his administration, has had a few rents torn in it. Examinations are to be held and new appointments made. Among the rules laid down for these examinations is one that the applicant shall not be more than sixty years of age and it is said that the age limit may be reduced still further. The battle scarred veterans of many political battles must retire and give the young men the right of way. This is no more than common sense if everything is to go under the civil service. If a man is to go in with a life tenure, he should have a good deal of active life before him. I have never yet heard a convincing reason for placing all government positions under the protection of the civil service, but the last Democratic platform declared for a scrupulous observance of the civil service laws "to the end that merit and ability shall be the standard of appointment and promotion, rather than service rendered to a political party," and it is believed that the administration means to enforce the civil service and perhaps extend it.

A distinguished party including Uncle Andy Carnegie and members of the British and Canadian parliaments were here this week with a view to arranging for a convention of all English speaking nations to celebrate the anniversary of the signing of the treaty of Ghent. The motive is to promote world wide peace by peaceful means rather than by big navies and a multiplicity of brass buttons.

The amusement features have not been selected, but the grounds will be equipped with swings and such outfits as are usually put on public playgrounds. The small boys have already dedicated it with games of baseball.

71 CASES FILED

VERY LIGHT DOCKET FOR JUNE TERM OF COURT.

SIXTEEN ASK DIVORCE

Borchers Cases Are Only Sensational Suits—Important Case is Moore Suit to Set Aside Deeds.

The June term of circuit court, which will commence on Monday, June 16, promises to be one of the lightest terms of circut court held for some time. Saturday was the last day of service on all suits except notes and accounts. At this term, as is usually the case, there will be no jury trials, owing to the busy season of the farmers.

There is only one sensational suit for the June term and that is the $20,050 damage suit of the Borchers against John Hoshor. The chances are that the case will not be tried at this term. Another important suit that is set for the June docket is the suit of set aside deeds filed by Charles C. Moore and Belle Russell against John S. Moore.

For the June term, there are sixteen divorce suits to come up. This is a large number for this term of court Many of the other cases filed are partition and perfect title suits. There were only 71 cases filed up to Saturday noon for the June term.

There were only three suits filed against the railroads for the coming term of court, one being against the Wabash and two against the Chicago Great Western.

HIGH SCHOOL NOTES.

Rev. Grundy Fisher, who now has a charge in Minneapolis, and who is a graduate of the Maryville high school, gave a short talk to the students Tuesday morning at assembly. The purpose of his talk was to impress upon the minds of the pupils to not only strive to keep on a level with their studies, but at the same time they should develop reserve force so that when they are compelled to extend themselves, they will be equal to and surpass the occasion.

The senior class pins came last Tuesday.

* * *

The first of the three games of baseball that are to be played between the two teams at the high school was played last Thursday afternoon on the Normal grounds. Even though it was a very one-sided affair, the score being 19 to 4 in favor of Davids' team, it was not without features. Ed Gorman made a grandstand catch out in deep center that seemed almost impossible to get, and mention must be made of the batting of Homer Scott, who got five safe blows out of that many trips to the plate. The batteries were: Davids' team, David and Miller; Wilson's team, Condon and Wiles. Mr. Westbrook umpired.

* * *

The high school team was out yesterday afternoon giving the Normals a practice game.

* * *

Mr. Bob Brown and Mr. Lawrence Keeler were visitors last Tuesday.

* * *

The Postia Quid held its regular meeting yesterday afternoon and the prospects for a successful society are very evident, for the membership has increased about 200 per cent since its beginning about six weeks ago. Instead of holding the programs after school, as has been done heretofore, a period will be set aside each Friday and the work done here will be credited the same as the other class work.

* * *

Word has been received from the engravers that the graduating invitations would not be here before the 20th.

Those who are going to take part in the tennis tournament were paired off yesterday and the preliminaries will be played off at the first of next week.

John Gex, trustee, and Clyde Trapp of Hughes township, and D. R. Baker of Skidmore were before the commission. They were working on a compromise proposition.

Bailey and Peter Ferguson of near Burlington Junction were also conferring with the members of the commission. They probably have one of the best stretches of road in the county, due to the fact that it is always kept in good shape.

Piano numbers were given by Mary Woolridge, Mary Margaret Richey and the hostess, who was assisted in serving her guests by Gladys Morehouse and Leona Pierpont. During the business meeting it was decided that on children's day it should also be "old people's day," and the morning session should be given to them. The best seats in the house are to be ribboned off for their occupancy and there are to be flowers and music especially for them. Members of the Endeavor who live in the different wards were appointed to visit every old person in their ward and invite them to come on that day. The Intermediate Endeavor will meet Sunday evening at 6:45 o'clock at the home of Mr. and Mrs. J. D. Frank, when a musical program will be the principal feature. Donald Hagins will be the leader. A quartet composed of Claude Glass, Curtis Benight, Mary Margaret Richey and Virginia Lawson will sing with Mary Woolridge as pianist. There will be several others on the program.

Elected New Officers.

The music department of the Twentieth Century club met with Mrs. Ferdinand Townsend Friday afternoon and selected its officers for the coming year. Mrs. Oliver K. Bovard was made chairman; Miss Brownie Toel, vice-chairman, and Mrs. Leslie Dean, secretary-treasurer. On account of postponement in meetings of other departments of the club, the April meeting of the music department was not held, consequently a double program was given Friday, the election of officers taking place during the recess between the programs. Church music was the first topic considered. Mrs. Will Wallis, Jr., read a paper on "The Evolution of the Church." She was followed by a quartet composed of Mrs. George Richard Eaton, Mrs. D. J. Thomas, Mrs. J. E. Bailey and Mrs. Ferdinand Townsend, who sang the hymns "Holy, Holy, Holy" and "O, Perfect Love." Mrs. Eaton then gave sketches of "Nearer My God to Thee" and "One Sweetly Solemn Thought," the last hymn being sung by Mrs. H. L. Raines. The solo, "Fear Ye Not, O Israel," by Dudley Buck, was sung by Mrs. Thomas. The subject for the May program was "Victrola Day." Miss Clara Sturm opened the porgram with a paper on "Women in Music." Selections by Geraldine Farrar, Emma Eames, Ellen Beech Yaw and Maude Powell were given on the victrola. Mrs. Leslie Dean then spoke of "The Sphere of the Victrola in the World of Music." The program closed with other selections upon the victrola by Louise Homer, Emma Juch, Lillian Nordica and John Philip Sousa. Upon invitation of the hostess the guests remained for refreshments.

Mrs. Townsend presided at the victrola during that part of the program and before the execution of each number, gave a description of the song and something of interest in regard to the singer, which was instructive to everyone. Mrs. Townsend is the retiring chairman of the music department and in recognition of her services, the members presented her with a bouquet of sweet peas in lavender and white, the club colors.

(United States Government Irrigation)

CARLSBAD,
New Mexico

We have 12,000 acres of land covered with beautiful alfalfa, cutting from 5 to 7 crops, and making from one and one-half to two tons per acre.

This is a new proposition, the water being controlled and operated exclusively by the United States government.

The following actual results taken from an affidavit given by I. S. Osborne, of Carlsbad says: "On my farm near Carlsbad I have 65 acres in alfalfa that has averaged two tons each cutting four times this year. The hay has been sold loose at from $10 to $12 per ton, I also cut seed from 23 acres of this land which yielded 625 pounds to the acre, selling at 14 cents per pound, an average of $88 per acre for 42 acres and $126.04 for 23 acres.

Large crops are not the only benefit to be secured by living at Carlsbad, New Mexico. More important even than money is health. The pure waters with their health giving medical properties from the famous Carlsbad and Malaga Springs, together with the pure, invigorating air and the beautiful sunshine, make it an ideal health resort.

We will sell this land on reasonable terms, deferred payments drawing 6 per cent and title guaranteed by government.

The first excursion will leave Kansas City, Mo., Wednesday, May 21. Round trip $45 including berths and dining room service. For information call on

FELT BAD ALL THE TIME

Shellhorn Lady Suffered a Great Deal, But Is All Right Now.

Shellhorn, Ala.—In a letter from this place, Mrs. Carrie May says: "A short time ago, I commenced to have weak spells and headaches. I felt bad all the time, and soon grew so bad I couldn't stay up. I thought I would die.

At last my husband got me a bottle of Cardui, and it helped me; so he got some more. After I had taken the second bottle, I was entirely well.

I wish every lady, suffering from womanly trouble, would try Cardui. It is the best medicine I know of. It did me more good than anything I ever used."

Cardui is a woman's tonic—a strengthening medicine for women, made from ingredients that act specifically on the womanly organs, and thus help to build up the womanly constitution to glowing good health.

As a remedy for woman's ills, it has a successful record of over 50 years.

Your druggist sells it. Please try it.

TRADE REVIEW FOR THE WEEK

Volume of Transactions in All Leading Branches Very Large.

ACTIVITY IS TRIFLE ABATED.

Though Bank Clearings for Week Fall Off, Railroad Gross Earnings Continue to Expand—Export Trade Is Enormous.

New York, May 17.—Dun's Review says: There is still some abatement of activity, due chiefly to anticipated tariff changes, but the volume of transactions in all the leading branches of trade and industry is very large. Conservatism is naturally more pronounced in the industrial and financial east, while in the agricultural west and south there is a marked feeling of confidence, based on the splendid crop conditions and the enormous export trade, much of which means large returns to producers of those sections.

The decrease in bank exchanges this week of 13 per cent as compared with the corresponding week a year ago was chiefly due to renewed speculative transactions at New York. It is noticeable that in contrast to the falling off in bank clearings, railroad gross earnings continue to expand, the gain in the first week of May being 7.2 per cent. The opening of lake navigation is helpful to business in the northwest. In most sections active building operations are reported, although in some places these are checked by labor troubles.

The iron and steel mills are busily engaged on selling orders, but there has been a net decline in business. The recession in iron and steel, as well as in the textile trades, is remarkably small in view of the conservatism inspired by the pending tariff changes.

The recent fall of rain has improved the already bright crop prospects. Agricultural exports in April broke all previous records for the month and during the latest week the total exports from the port of New York were $18,566,623, nearly equalling the imports and $1,004,202 greater than last year. Failures for the week are 290.

MILITANTS TO WRECK TRAIN

Men With Crowbars Discovered on Viaduct Following Threat.

London, May 17.—Following the receipt by officials of the Midland railway a few days ago of an anonymous letter giving warning that a suffragette attempt would be made to wreck a main line express, two men, with wrecking tools, were arrested on a high viaduct near Whalley, in Lancashire, which carries the Midland tracks connecting Liverpool with Scotland.

They carried crowbars, sledge hammers and other tools. The prisoners were remanded for a week.

A workman-like cannister of explosives, with a clockwwork attachment, was found in the Rotherhithe public library in East London. It was labeled "Votes for women." According to belief in some quarters, it was placed there by a man. Indeed, the police suspect many men have been engaged by the militants for this work.

Another machine was found in the letter box of the Wandsworth district postoffice in Southwest London. It consisted of a glass tube containing fluid. A partly burned fuse was attached to one end.

Still another cannister of explosives, with a partially burned fuse, was found in Holy Trinity church at Hastings, a popular watering place on the south coast, where the militants have been most active during the week.

ARMY COMMISSARY HAS NEW BREAD RECIPE.

Washington, May 17.—Sour bread, baked after the French army fashion, finally has been given up by the United States military establishment. After numerous experiments, Commissiary General Sharpe has developed a new bread that is impervious to the weather, sweater than the old loaves and easier to transport. Following is the recipe:

To 100 pounds of sifted flour add fifty-two pounds of water, one and a half pounds of dried yeast, three pounds of sugar and one and a quarter pounds of salt.

The mixture is cooked in a slow oven and the loaves baked flat.

Moonshiners Flee Before Posse.

Springfield, Mo., May 17.—A band of armed moonshiners, owners of a "wandering" illicit still in the Ozark mountains of Ripley county, Missouri, are in flight before a posse of federal officers, who left Springfield to raid the still, according to word received here. The moonshiners are reported to have crossed into Oregon county, hotly pursued by the posse.

Girl Does Not Recall Shooting.

Muncie, Ind., May 17.—Miss Doris Underwood, the young Hartford City school teacher on trial here charged with shooting with intent to kill Otis Fisher, a drug clerk, who, she alleged, had wronged her sister, Ada, declared at her trial that she remembers nothing of the shooting.

ANNOUNCEMENT EXTRAORDINARY

Abraham Lincoln Hotel in New York Exclusively for Men.

From Life by our Homer Croy.

We are at last able to fill a long felt want. The Martha Washington hotel, exclusively for ladies, now has its counterpart. Located in the heart of the metropolis, the Abraham Lincoln hotel offers a safe harbor for all men visiting the city who desire that privacy and security so necessary to any self-respecting gentleman in these days.

The Abraham Lincoln hotel has been built for the exclusive use of men, and it is run and managed throughout by men, no woman being permitted within two hundred feet, so that all gentlemen visiting our city and who, under the usual circumstances are constantly maddened by the sight of women wearing expensive clothes, etc., may now enjoy their sacred rights and privileges without fear.

Up to the present time there has been no place in the entire metropolis where a man might retire in safety under adequate protection. In the Abraham Lincoln hotel every detail of construction and management has been arranged in order that all guests may enjoy that peculiar freedom which is now so rare.

Husbands who enter the city from all parts of the country should go at once to the Abraham Lincoln hotel, where they will receive every attention at prices within the reach of all. Located in a quiet street, under police protection, every husband will enjoy that rest and freedom from care which he can obtain nowhere else.

The appointments of the hotel have all been made with special reference to the needs of our patrons. There are no cosy corners, tidies on the backs of chairs, fusy curtains or silk and lace bed spreads in which, if you are restless, you are liable to get your feet entangled at one or two in the morning.

Our pajama poker room is one of the features of the place; in fact, guests may wear pajamas at any hour of the day and night.

The success of the hotel is its own best advertisement. Not only is it crowded day and night by guests from all parts of the country, but local husbands who wish to get away from their wives for a few days' much needed rest are flocking here in hundreds. The following letter is only a sample of many constantly received since the hotel was opened:

Dear Sirs: I wonder if you fully realize what you are doing for us men. This is the first time in my life that I have been able to get entirely away from women. The rest to the eye alone is enormous. Everywhere I go I see nothing but women. No one can appreciate what it means not to have to look at them until he has tried it. I registered at your hotel last week and have been steadily gaining in health and strength ever since. I haven't had to listen to a woman now for over a week, and the simple fact that my wife cannot get at me is worth double what you charge.

Yours gratefully, Simeon Spader.

Dear Sirs: Although I am a bachelor, I want to thank you for the grand idea you have given to the world, embodied in your unique hotel. The other day I had just returned from a week-end party, where I had been playing bridge with a variegated assortment of women, and I was encrusted with a feminine atmosphere so deep that I couldn't see straight. Now I am a new man. For the first time in years I am able to reason correctly. Not to see a velvet slipper or a willow plume for twenty-four hours is worth everything to a city man.

Yours for freedom,

Billington Calloway.

We have a special corps of trained men chaperons, who will escort our guests at any time to any part of the city by application at the office. We have also, connected with the hotel, a bureau of advice for the use of our patrons who come to the city and who are obliged to transact business with women. We protect you in every way possible.

In case our guests wish to do shopping, the services of one of our chaperons will be found indispensible. The chaperons are specially trained for the service, and will protect you alike from the haughty superciliousness of the saleslady in the department store and the boisterous disregard of the female traveler in the subway.

In case you desire to go to the theater a chaperon is abosolutely necessary.

For the services of a chaperon, our rates vary according to the nature of the protection, but are principally as follows:

Ordinary rates, which includes protection about town, one dollar an hour.

On Fifth avenue, fifty cents an hour extra.

Shopping above Twenty-third street, two dollars an hour.

Below Twenty-third street four dollars an hour.

Services of specially skilled chaperon to acompany and protect you if you desire to interview your wife, one dollar a minute while interview lasts.

The whole atmosphere of the Abraham Lincoln is intensely cheerful, quiet and exceedingly restful. After a lifetime spent in listening to women, looking at their clothes, trying perhaps vainly to get a word in edgwise, and hoping in vain to come to some definite conclusion with and about them, every sincere earnest man looking for a real change should register at the Abraham Lincoln. Floor plans on application, also rates.

Government Homesteads.

The United States reclamation service announces the availability for homestead entry some excellent irrigated farms in the well-known Shoshone irrigation project near the Yellowstone Park in Wyoming and in the Huntley and Belle Fourche projects in Montana and South Dakota. Water is now ready for delivery to these farms, and under the new three-year homestead law a liberal inducement is accorded settlers in that they are permitted five months' leave of absence in each year. The cost of the water right is repayable in ten annual installments without interest.

In all of the foregoing districts there are already splendid transportation facilities good roads, schools, stores, churches of practically all denominations and rural free delivery. For those with sufficient means to commence farming operations this offers an excellent opportunity to work out one's independence and to develop a paying farm. Mr. Albert V. Leonard, settlement agent of the reclamation service, Federal Bldg. Chicago, has available for distribution several descriptive pamphlets concerning these projects and will be glad to furnish them upon request.

Miss Edith Jones of Pickering attended the conservatory commencement Friday evening and was the guest of her cousin, Miss Maud Tarpley. Miss Jones is a student at the conservatory.

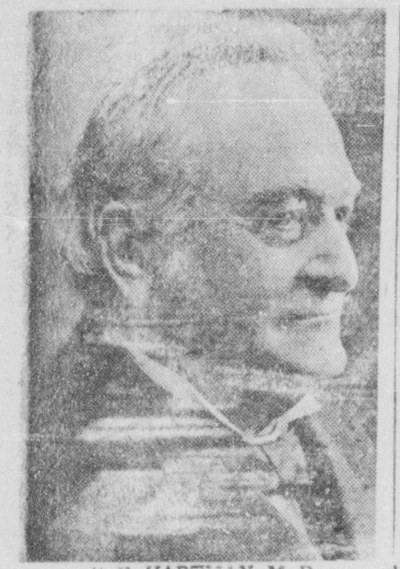
Religion and Medicine



S. B. HARTMAN, M. D.

Is there any intimate relation between religion and medicine?

Yes, there is. The old-time healer was also the priest. Theology and medicine have not maintained a separate existence very long. They used to be one. Yes, there is an intimate relation between religion and medicine.

It is well known of a person who eats with unthankfulness and ill-natured spirit, that his food will not have the same effect as if he were in a kindly mood. The same is true of medicine. If a person swallows a medicine with suspicion, has no faith in its action, is more or less afraid of the one who gives him the medicine, it cannot do him as much good as if he had unwavering faith in it.

The mind has a wonderful influence over the body. Those who believe that a loving Father controls the destiny of mankind are a great deal better prepared to meet the vicissitudes of life and to overcome disease than the one who has no such faith. A truly religious man makes a better patient than an irreligious man.

In using the word religion I am not referring to any particular kind of religion. The Jew and the gentile, the Catholic and the Protestant, each have a religion in which they believe. They also agree in the essentials.

A religious man may believe that it is necessary for him to use every means in his power to get well. He may believe that it is perfectly proper for him to employ doctors and take medicines. But he also believes that when he has done the best he can there is a higher power that has charge of his affairs, that absolute justice will be done him, that no evil thing can befall a good man. He goes forward with confidence, sick or well, rich or poor, and gets a great deal more comfort out of life than the man who has no religion.

I have found myself saying many times to people who have a chronic ailment, "You need religion as well as medicine. You need faith in an overruling providence that guides everything to wise ends; that the affliction of disease teaches a lesson that every one should strive to learn."

This does not mean that sick people are to sit down and trust that an overruling providence will do everything. Nothing of the sort. He is to use remedies guided by his best judgment, but in the use of them he can believe that all things are well and that in the end all things will come out right. Any medicine has a better chance to cure a man who holds such a faith.

Some men are so faithless and unbelieving, so restless and desperate, their minds so unsettled, that even the best of medicine has little chance to do them any good. Therefore I say that religion is often quite as necessary as medicine, that the want of religion frequently defeats the action of the best medicine.

Many a chronic invalid has searched in vain for a physical remedy simply because he has lost his grip on vital religion, the religion that not only provides salvation in the world to come, but soundness of body and mind in the world that is.

Yes, there is a most intimate relation between medicine and religion. Other things being equal, the irreligious man stands a poor chance of getting well when he is sick, while the religious man frequently gets well in the most astonishing way after the doctors have all given him up to die. With a firm faith in a rational religion and an obedient use of the right remedy a great many hopeless invalids could be restored to perfect health.

Well, you have made it clear as to what you mean by religion. But what is the remedy you would recommend?

Of course I would recommend different remedies for different conditions. But the particular remedy that I am interested in at this time, the remedy that meets more chronic ailments than any other remedy I know of, is Peruna. Peruna is a remedy for that multitudinous group of ailments that are dependent upon catarrhal derangements.

I am furnishing a book on catarrhal diseases which I send to any person free. In this book I explain quite fully the uses of Peruna. Those who do not care to wait to send for the booklet at this time will find information and instruction as to the general uses of Peruna explained within the wrapper of each bottle. PERUNA IS FOR SALE AT ALL DRUG STORES.

SPECIAL NOTICE—Many persons are making inquiries for the old-time Peruna. To such would say, this formula is now put out under the name of KA-TAR-NO, manufactured by KA-TAR-NO Company, Columbus, Ohio. Write them and they will be pleased to send you a free booklet.

SENATE AGAINST TARIFF HEARINGS

Penrose-La Follette Amendment Defeated, 41 to 36.

LOUISIANA MEN IN NEGATIVE.

Senators Ransdell and Thornton Vote With Republicans—Poindexter Is Only Progressive Voting With the Majority—Smoot Makes Prediction.

Washington, May 17.—Democratic leaders in the senate were indorsed in their determination to refer the Underwood tariff bill to the finance committee for consideration without public hearings. The Penrose-La Follette amendment, directing that public hearings be held, was defeated by a vote of 41 to 36 and the motion of Senator Simmons to refer the bill then was passed without a roll call.

Two Democrats, Senators Ransdell and Thornton (La.), voted for the Republican amendment. Senator Poindexter (Prog., Wash.) voted with the majority. Senator Jones (Rep., Wash.), who previously had determined to vote against public hearings, announced just before the roll call that he had changed his mind because the finance subcommittees were giving private hearings to some interests which he thought should be public.

The closing day of debate on the hearings was enlivened with a discussion of the Democratic platform and its bearing on free sugar by Senator James (Ky.), who vigorously defended the stand taken by President Wilson for free sugar, declared that the party had stood for free sugar and campaigned on it and defied the Louisiana senator to find a man President Wilson had ever told he was opposed to free sugar.

Senators Smoot, La Follette and Clark wound up the debate on behalf of the public hearings amendment, Senator Smoot predicting that the Democratic party would be put out of power for another quarter of a century as a result of its tariff bill.

ARIZONA BARS ALL ALIENS

New Land Ownership Bill Is Signed by Governor Hunt.

Phoenix, Ariz., May 17.—Governor Hunt signed Arizona's new alien land bill. It prohibits any alien, whether of Caucasian or Mongolian descent, from owning land in Arizona if he has not declared his intention of becoming a citizen.

Representative Japanese conferred with the governor in an effort to induce him to veto the bill, but he declined on the ground such a law was necessary in interest of the white race.

The governor added that the law was made to apply to all aliens in compliance with the wishes of the national administration, as expressed during the session of California's legislature.

DRAFT REPLY TO JAPS

President Wilson and Cabinet Consider Answer to Protest.

Washington, May 17.—A tentative draft of the reply of the United States government to the Japanese protest against California land legislation, prepared by John Bassett Moore, counsellor of the state department, was considered for two hours by President Wilson and the cabinet. No intimation of its nature was made public, Secretary Bryan positively refusing to discuss either the proposed reply or Japan's protest.

Indicts Four Roads for Rebating.

East St. Louis, Ill., May 17.—Five indictments, charging rebating on sixty-three counts, were returned against four railroads and a coal company by a federal grand jury. Democrats Prepare for Future Fights.

Washington, May 17.—The campaign for Democratic supremacy at the polls in 1914 and 1916 was opened here when the executive campaign committee of the Democratic national committee organized and discussed preliminary plans. Representative A. Mitchell Palmer of Pennsylvania was made chairman and Rolla Wells of St. Louis, treasurer.
